

PHOTO POLICY

Amateur Photographers

We welcome recreational photographers who are taking pictures/videos for personal use only. We encourage you to post your photos on social media and give a shout out to the park! No appointment is necessary, but the photographer must not, in any way, interfere with staff, volunteers, or private events in progress. If complaints are received, we have the right to ask you to leave.

Professional Photographers/Videographers

Professional Photographers accepting payment for their photos must have this application approved and the fee paid at least two days prior to the photo/video shoot. The rate for professional photography/videography is \$50 per hour. We frequently close the park to visitors, especially on weekends, to host weddings or other large private events, so your shoot time must be approved in advance. If you have rented the park for a wedding or event, no additional fees apply as long as your shoot occurs during your rental time. All activities (setup, photos, tear-down, etc.) must take place within the time you have allocated and paid. There must be NO damage to the park plantings or grounds! We have the right to refuse access to any photographer/videographer whose professional demeanor, in the park's opinion, would damage the reputation of the park. Drone use must comply with all federal, state and county laws and regulations. You will be provided with an authorization card that you must keep on you the day of your shoot.
